Advanced Trauma Care for Nurses

The Advanced Trauma Care for Nurses (ATCN®) course is taught concurrently with the Advanced Trauma Life Support (ATLS®) for physicians. ATCN® was developed to teach established standards of care and practical, life-saving skills. This advanced trauma course is designed for the nurse working in Emergency Departments, Intensive Care Units, Medical Surgical floors or the Operating Room who wish to increase their knowledge and practical skills in managing the multiple trauma patient.

The course includes didactic presentations on initial assessment, airway management, abdominal trauma, thoracic trauma shock, head and spinal cord trauma, burns, extremity trauma, pediatric trauma, trauma in pregnancy, and stabilization and transportation. Coupled with the Lectures are corresponding practical skill stations and moulage assessment stations which demonstrate application of didactic information.

ATCN courses are being held at :
VCU Medical Center
West Hospital / 15th Floor
1200 E. Broad Street
Richmond, VA

ENROLLMENT:
